Re: Ethyl Corp. Fuel Additive Waiver

Dear Mr. Reilly:

We have been informed that the Ethyl Corp. has requested a fuel additive waiver for its HITEC 3000 fuel additive.

Since the company claims decreased nitrogen oxides and carbon monoxide emissions from automobile emissions, we are requesting that USEPA expeditiously and thoroughly review their waiver request. This type of product may have a beneficial use in our ozone nonattainment area in addition to USEPA's setting more stringent Reid Vapor Pressure standards.

Sincerely,

Bruce E. Blankenship  
Administrator
